Unfortunately the Isle of Wight Strategy has not yet been adopted but it will have short medium and long term goals. Local Traffic Plans were discussed and he reported that Councils have benefitted from having a local Traffic Plan.

Discussion took place on the Temporary Traffic Order regarding the loading bay outside Sainsbury's and the additional parking places. It was suggested that the same arrangement could be put into use outside Somerfield's. It was suggested that the yellow lines many of which are historical could be revisited as part of a traffic plan.

Kevin Burton offered if the Council wished to go ahead with a traffic plan to assist the Council achieve this and suggested a small working party is formed that could circulate a residents questionnaire, look at congestion on the Broadway as well as the possibility of realigning the road at Morton Common. The time scale would be determined by the Town Council but it was suggested that the working party meets monthly. It was also suggested that the road humps in Perowne Way be looked at. It was reported that the Pier Street indicator board was not working and Kevin offered to look into the problem.
